

AGREEMENT OF THE ENVOYS

TWO OF THE PROPOSALS THAT CAUSED TROUBLE.

One Calling for the Recasting of Commercial Treaties and Another That China Should Consent to Financial Control as a Guarantee of the Indemnity—Both of These Finally Adopted—Lowest Estimate of Indemnity Places It at \$200,000,000.

London, Nov. 27.—Dr. Morrison, wiring to the Times from Peking Sunday says:

"The foreign envoys have agreed to two proposals: they were previously rejected owing to lack of unanimity. These are Sir Ernest Satow's proposal that China should agree to re-cast the commercial treaties and the Italian proposal that China should consent to financial control as a guarantee of the indemnity."

"The delay in the presentation of the joint note is due to postponements by the home governments. This increases the difficulties of the position and aggravates the dislocation of trade and finance, especially the collection of internal revenues. At the lowest estimate the indemnity is computed at \$200,000,000."

Berlin, Nov. 26.—The National Zeitung, discussing the punishment of the guilty officials in China, says: "Germany must abide by the decision of the ministers at Peking."

The Post says the peace negotiations will probably be finished at the end of the week.

Berlin, Nov. 26.—A dispatch received by the Navy League here to-day says that Colonel York's column reached Kalgan (about one hundred miles northwest of Peking), November 18. The Chinese troops, numbering three thousand men, fled. A battalion of Chinese imperial soldiers was disarmed.

GERMANS AT THE GREAT WALL.

Flag Hoisted November 23—French Troops in Severe Fight.

Berlin, Nov. 26.—A dispatch received here from Field Marshal Count von Waldersee, dated November 24, says that Colonel Muehlenfeld's expedition has hoisted the German flag over the Great Wall, which was reached on November 23, by way of Hay-Ling-Chang after a difficult mountain march. The dispatch adds that the French have had a severe fight with Boxers thirty kilometers south of Pao-Ting-Fu.

Letter from the Emperor Intercepted.

Berlin, Nov. 26.—A letter from Emperor Kwang Su to Li Hung Chang has been intercepted by the Germans, says a private dispatch from Peking, "but its contents have not been made public. A small German detachment destroyed An-Hsieh-Wang, sustaining no losses. The weather here is now severely cold."

TO TEST FIELD ORDNANCE.

Plans Maturing for the Selection of the Very Best Gun.

Washington, Nov. 26.—The ordnance bureau of the war department is preparing to make a comprehensive test next spring of the very latest inventions in field ordnance with the purpose of selecting a gun which will bring the United States artillery branch up to an equality with the best foreign artillery. American gunmakers have already been notified that this trial will commence on March 20th next, and most of them are planning to have pieces of ordnance in the competition, which is expected to be thrown open to foreign inventors and gunmakers in order to secure the very best results. The date named is just beyond the time of twelve days allowed by the war department for the completion of a working model of a piece of field ordnance on the general lines of the French gun which consequently may be placed in the competition.

DYING EMBERS OF BOER WAR.

British Cabinet Officer Says They Must be Stamped Out Vigorously.

London, Nov. 26.—The Rt. Hon. Robert William Harbury, president of the board of agriculture, addressing his constituents at Preston this evening and referring to Mr. Kruger's complaint of "British barbarism," said: "This is no time for paltering with the dying embers of the Boer rebellion, for rebellion it now is, and it must be stamped out vigorously."

To Embark Lord Roberts.

Cape Town, Nov. 26.—The British steamer Canada, Captain Maddox, sailed to-day for Durban, presumably to embark Lord Roberts.

Germany Not Seeking Caracua.

Berlin, Nov. 26.—The National Zeitung to-day semi-officially denies that Germany is seeking to acquire the island of Caracua, Dutch West Indies.

Czarina's Confinement Near.

Copenhagen, Nov. 26.—The Danish court has received advice from Livadia that the confinement of the czarina is fast approaching.

A COMPLETE WRECK.

A St. John Schooner Washed Ashore—No Signs of Crew Found.

Portsmouth, N. H., Nov. 26.—The battered hulk of what was the St. John schooner Advance was washed ashore on Wallis Sands this afternoon with no signs of life aboard. Whether her crew of four or five men have been taken off by a passing vessel or have gone to a watery grave can only be conjectured. There is a chance that they may have reached the Isle of Shoals eight miles to the eastward off shore, as the schooner in her drift went very near that famous island cluster.

The schooner is a complete wreck. She was sighted at dawn and the Wallis Sands life savers waited over six hours for her to strike the beach, and when she did the sea was so heavy that the surf boat could not be launched. Just before dark they managed to board her in their surf boat, but there was little to reward them for their efforts, for the schooner was beyond all hope of saving. The Advance sailed from St. John, N. B., early in the month, bound for Boston with a cargo of alives and shingles. She was last reported at Southwest Harbor, Mount Desert, last week. She was ninety-ninety burden.

CONDITION OF THE CAZAR.

Official Report Says a Distinct Improvement is Noted.

Livadia, European Russia, Nov. 26.—11 a. m.—The following bulletin regarding the czar's condition, has been issued:

"The emperor passed a good day yesterday. He was able to sleep a little, and perspired somewhat. At 3 o'clock in the afternoon his temperature was 99.3; pulse, 73. At 9 o'clock in the evening his temperature was 99.5; pulse, 72. His majesty passed a good night. He perspired profusely. "This morning the august patient's condition was very satisfactory. At 9 o'clock his temperature was 99.3; pulse, 70."

"In the general course of his illness a distinct improvement is observable."

Origin of Sensational Rumors.

London, Nov. 26.—Since the czar's illness apparently assumed a serious turn it has been the daily practice of brokers in Paris, London and elsewhere to announce his death. Hence, probably, the reports of the czar's death which have reached New York.

PROHIBITIONISTS ACTIVE.

Already Collecting Funds for the Campaign in 1901.

Chicago, Nov. 26.—Chairman Stewart of the prohibition national committee announced to-day that funds for the campaign of 1901 are already being collected and that it was the intention of the party leaders to make a more vigorous campaign than the last one. Chairman Stewart said: "It is the intention of the national committee to effect organization in every precinct of every township in every state, and every feature of the campaign of 1901 will be vigorously fought."

William T. Wardwell of New York, for the past twelve years secretary of the prohibition national committee, has tendered his resignation to take effect as soon as the executive committee can take action.

A SUFFRAGAN DIOCESE.

Archbishop Keane's Jurisdiction to be Divided—Other Changes Likely.

Washington, Nov. 26.—Official advice have been received by Archbishop Keane of Dubuque, Ia., who was formerly rector of the Catholic university here, that the Roman authorities will divide his jurisdiction by creating a suffragan diocese at Sioux City early next month. It is officially stated that Sioux City has been chosen by the papal authorities for the head of the new see, and other the Bishop of Cheyenne or Rev. Father Heer of Doyessville, Ia., will be appointed its incumbent next month. At the same time it is expected that Altoona, Pa., will be declared an Episcopal see, with Very Rev. Dr. P. J. Garvey, president of the St. Charles seminary, Philadelphia, as its first bishop.

NOT SORRY AT LEE'S DEPARTURE.

Cuban Constitutional Convention Falls to Express Sympathy.

Havana, Nov. 26.—At the opening of to-day's session of the Cuban constitutional convention in the Marti theater, Senor de Quesada moved the rejection of the resolution, introduced Saturday by Senors Rivero, Cisneros and Villendunas, expressing the sorrow of the convention at the departure of General Fitzhugh Lee. The resolution was thereupon withdrawn unanimously. Senor Rivero said after the session that some of the delegates intended to attack General Lee on the ground that he had not always been a friend of the Cubans, and that in view of this General Lee's friends thought it would be better not to press the resolution of regret.

KING HUMBERT'S ASSASSINATION.

An Interpellation in Italian Chamber—Government Not Responsible.

Rome, Nov. 26.—The chamber of deputies to-day discussed an interpellation arising from the assassination of King Humbert. The premier, Signor Saraceno, declared the country could not hold the government responsible for the terrible fatality, against which all the foresight of a statesman was powerless. He admitted, however, that the local authorities did not take adequate precautions.

FEAR CLASH WITH INDIANS

COLORADO TROOPS ORDERED HELD IN READINESS.

Deputies to Attempt to Stop the Raids of the Indians on Game—Reports That They Have Slaughtered Hundreds of Deer—They Will be Arrested if Caught.

Denver, Col., Nov. 26.—Adjutant General Overmeyer to-day wired Troop A cavalry at Grand Junction to be in readiness for immediate call in case Game Commissioner Johnson's force should not be equal to the Indians in the White River district. Fear is expressed that Commissioner Johnson will make the attack upon the Indians against overwhelming odds.

Little, Col., Nov. 26.—Game Commissioner Johnson and his deputies proceeded to Meeker by stage to-day in an effort to drive the Indians, who are now slaughtering Colorado game, back to their reservation.

Denver, Col., Nov. 26.—The Uintahs and Uncompahgre Utes are not making the trouble this year, but the White Rivers, who once occupied the territory which they have now invaded. In the past the Indian agents have kept the White Rivers on the reservation because of the bitter feeling of the tribe towards the whites, who, they claim, took possession of lands belonging to them without right or treaty.

It is reported that even a larger number of Indians than the five hundred previously reported have left the reservation and are slaughtering hundreds of deer in the vicinity of Yama and White Rivers. Commissioner Johnson will station pickets at the state line to prevent the passage of the Indian pack trains with their tons of plunder from the state. He is determined to arrest some of the Indians with game in their possession, if possible, in order to have the laws regarding Indian raids tested.

This afternoon Governor Thomas received a communication from Secretary of the Interior Hitchcock at Washington stating in substance that the department had sent its Indian agent to scour northwestern Colorado for murdering Indians, but had failed to find one. There was a hint in the communication that this would officially end the correspondence so far as the government was concerned.

Instead of pacifying the governor it had a tendency to make him more vigorous in his application of the state law. He claims to have a dozen reports from as many different men on file proving conclusively that the Indians have slaughtered over 500 deer in Routt and Rio Blanco counties.

AWFUL WRECK REPORTED.

The Report, However, is Unconfirmed and Discredited.

Cincinnati, O., Nov. 26.—A special to the Commercial Tribune from Charleston, W. Va., says: "It is reported here that a Chesapeake and Ohio railroad train went through the Green Brier river bridge, which had been damaged by the recent floods. It is supposed that there were about two hundred people on the train and that all were lost. All wires are down at and near the crossing of this river, and it is impossible to get any sort of confirmation of the disaster. Even the railway officials are unable to secure communication with points on either side of the river."

Cincinnati, O., Nov. 26.—There has been great apprehension to-night over a report that a Chesapeake and Ohio passenger train had gone through the Green Brier river bridge near Hinton, W. Va. All through wires on that line are down and it is impossible to reach Green Brier river or any points near it. Many messages have been sent by those who have had friends on that road to-day, as it was not known what train went through the bridge, but no response to any messages have been received and they are accepted only subject to delay. Charles B. Ryan, assistant general passenger agent of the Chesapeake and Ohio road is here to-night and he discredits the story entirely. He said there was a very bad landslide near Green Brier river not far from White Sulphur Springs and it has compelled them to transfer passengers during the day.

Parkersburg, W. Va., Nov. 26.—The passenger train reported wrecked on the Chesapeake and Ohio is said to have been west-bound, consisting of seven passenger coaches, baggage, express and mail cars. It is said that among the passengers were ex-Governor McCorkle, State Auditor-deput Sheriff and State Senator Alexander M. Miller.

Washington, Nov. 26.—The Post has received a message from the railroad telegraph station at Hinton, W. Va., saying there is no foundation for the story of a wreck on the Chesapeake and Ohio near that place.

Richmond, Va., Nov. 26.—The Chesapeake and Ohio officials here positively deny the story of a passenger train wreck at Green Brier river bridge and all stories of any loss of life on the line.

The Dispatch had a special after midnight from Ronceverte, which is within a few miles of the very point at which the Chesapeake and Ohio crosses the Green Brier. The special reports a freight wreck, with no loss of life, at Allport and mentions delay of passenger trains in such a way as to discredit entirely the passenger wreck report.

OPERATIONS IN NOVEMBER CORN.

Young Phillips' Corner—His Interesting Manoeuvres Yesterday.

Chicago, Nov. 26.—November corn touched 50 cents to-day. It made an advance of 5 cents for the day, of 10 cents a bushel for the week and of almost 15 cents within four weeks. Young Mr. Phillips sold what corn changed hands at that point; shortly after the buying that advanced the market to the 50 cent quotation. The man with a corner in the hollow of his hand is apparently not ready to let it get away from him. All the morning the little corn king stood on the edge of the pit and watched the ebb and flow of the battle. Whenever the clamorous "short" howled the price up in the face of unresponsive takers, he pushed to the front of the line to let out more corn.

Some of the dealers thought the juvenile-looking speculator was in straits and was running to wind up his string. They jumped on the market and tried to sell corn at 47.2. Phillips turned instantly from seller to buyer, from bear to bull, and snapped up every man who was offering to shade the price that he was making. The decline stopped at once. The closing price was 49 cents, a reaction due to Phillips' buying.

It was significant to some traders that the firms who are reported to be at the mercy of Phillips have not given any sign of extreme worry. There is still some talk of special trains coming from the country with corn enough to make good the obligations to Phillips. To the outside there is no sign of this predicted movement.

Phillips' conduct to-day won him great praise. Few men have been able to keep a cool head under like circumstances. He parted with 300,000 bushels, about one-tenth of his holdings. He bought 100,000 when the bears tried to drag him off his pedestal. He made \$20,000. Apparently he is going to keep the selling price around 50 cents. If the "short" are meditating a coup on the last day they may wake up to find that Phillips has closed out his line. He claims now that he cannot be squeezed whatever may happen. As long as he keeps on selling more than he buys and holds the market down to 50 cents he is seemingly too nimble to be crowded off the market with his corner. Other speculators have been broken by buying at a big price in order to hold up the market and playing their funds on margins.

KILLED BY A COMRADE.

Newport Boy Shot Through the Head While Gunning.

Newport, R. I., Nov. 26.—William Brooks of Jamestown, son of Chief Engineer William Brooks of steamer Beventhal, was accidentally shot and killed while gunning to-day. Brooks, who was about sixteen years of age and two other boys were after gulls. Brooks, hidden from his companions by a rock, shot at a gull. Just as one of his comrades fired Brooks raised his head and received a bullet back of the left ear. He fell into the water and lived but a few moments after his companions had pulled him to the shore.

Pittsburg, N. Y., Nov. 26.—Two Chinamen were captured near here and four more at Union last night, while being driven from points in Canada to railroad stations in the United States. Indications are that these arrests will lead to uncovering of an elaborate scheme to violate the Chinese exclusion law.

Washington, Nov. 26.—The issue between the United States and the United Kingdom withholding of an ex-convict to Dr. Thomas H. Norton to be consul at Harport has passed into the controversy stage and the indications are that it will be weeks before the matter can be settled.

GOULD TRUSTEES ENJOINED

ACTION GROWING OUT OF COUNT DE CASTELLANE'S DEBTS.

An Injunction Granted Restraining the Payment to Anna Gould of Any Part of the Estate Held in Trust for Her—The Action Brought by a London Art Dealer to Whom the Castellane's Are Heavily Indebted.

New York, Nov. 26.—The affairs of the Count and Countess de Castellane and the Gould millions were again brought before the public to-day. Samuel Untermyer, of the firm of Cuguenheimer, Untermyer & Marshall, this morning obtained from Justice Fitzgerald, sitting in special term in the supreme court, an injunction order, returnable on Monday next, against the Count and Countess de Castellane and George Gould, Edwin Gould, Howard Gould, and Helen M. Gould, as trustees under the will of Jay Gould. The trustees are restrained from paying over to Anna Gould, (Countess de Castellane), or any person acting for her, any part of the estate in the hands of the trustees, or from applying any part of the trust fund to the debts of Anna Gould, or to her support, or to that of her children, until the further directions of the court.

The nominal plaintiff in the suit is Anton J. Dittmar, who sues as assignee of Asher Wertheimer, a London bric-a-brac dealer, but Wertheimer is said to be the real plaintiff. The complaint contains copies of drafts drawn by Asher Wertheimer and accepted in writing by the Count and Countess de Castellane amounting to over \$77,000, of which \$57,000 are past due. It is alleged that Anna Gould has \$18,000,000 held in trust for her by her brothers and sister, and that her income is about \$800,000 a year.

The complaint states that \$250,000 a year is all that the Castellanes require for their support, and asks that the remainder of the income should be applied to the payment of the debts of the countess. It is said that over \$250,000 of surplus income has already accumulated in the hands of the trustees.

It is understood that Mr. Untermyer's firm represents other claimants, and that this is in the nature of a test suit. A few weeks ago George J. Gould was appointed guardian for the Countess de Castellane with her consent and that her husband in a proceeding in France declaring her a spendthrift. The creditors claim that this proceeding was to get the property of the Countess de Castellane away from attack by her creditors, so as to enable the Goulds to force settlement of the debts on their own terms, and the purpose of this suit is to have the court regulate the way in which the income is to be applied to the debts.

Judge Dillon, counsel for the Gould family, made the following statement last night concerning the suit: "The Countess de Castellane is not entitled to any part of the capital or principal sum of the estate of her father as the statement of the plaintiff seems to imply. The will of Mr. Gould provides in substance that the income is to be a trust fund in the hands of the trustees, to be appropriated for the support and maintenance of his daughter, and that she cannot anticipate or dispose of any part of that income until it is actually received by her and that until so received it shall not be liable for her debts or those of any husband and undoubtedly the trustees will feel it to be their duty to have this provision in the will carried out in its full extent, or as far as possible. She has no control over her husband's income, and she cannot control the principal sum which goes to her children after her death."

"In the foregoing statement it is said the creditors claimed that the proceedings in Paris whereby George Gould was appointed guardian for his sister, that the idea of the Gould family was to get possession of the income of the Countess de Castellane and force her creditors to settle on their own terms. This is obviously a mistake, as the only effect of that proceeding is to prevent her from incurring fresh obligations without the consent of her brother."

\$140,000 AWARDED AMERICAN.

Reported Decision of British Empire in Dispute With Guatemala.

Washington, Nov. 26.—It is unofficially but reliably reported to the department of state that Mr. Jenner, the British umpire in the arbitration of the case of Robert H. May, an American citizen, against the government of Guatemala has rendered a judgment in favor of the claimant to the amount of \$140,000, American gold.

May entered into a contract with the Guatemalan government to operate and improve a railway for which he was to receive a monthly subvention of \$35,000, keep the revenues of the road and be paid for certain extra work. He began his work in April, 1898, but in October of the same year was dispossessed by military force. The subventions due at that time had been only partially paid, and May's claim was for the payment of those subventions for money expended in extra work, and compensation for his general losses.

The basic claim was for \$127,000, and there was to be an allowance for profits over and above this sum.

SEC. LONG'S ANNUAL REPORT.

Recommendation for the Increase of the Navy.

Washington, Nov. 26.—The annual report of Secretary of the Navy Long was given out for publication to-night. The report opens by giving an account of the operations of the navy in the east and of work of the marines ashore. It then takes up the various matters of interest in the navy. Regarding new vessels it says:

"The department is of opinion that congress at its coming session should be asked for only two battleships and two armored cruisers, all of the maximum displacement specified; that at least six light-draft gunboats and some small craft for river service are especially desirable in connection with our insular service, and that the collars, training ships, transport and repair ship are the necessary accompaniment of the general recent increase of the navy, both in its fighting force and in the large range of its operations. The department therefore makes its recommendation in accordance with this opinion."

The mayor states that by uniting the two governments there would be a saving of \$10,000 per annum and the taxes of the present city government or the annexed territory would not be increased. A committee of five citizens representing the city and town was appointed to consider the subject and, if found advisable, to prepare a bill amending the present city charter to be presented at the next general assembly.
